

Mother Compost is looking for a driver to join our growing team and help us fulfill our mission of helping people compost.

This job is for you if:

- You want to make positive change in your community
- You want to get in on the ground floor of a growing company & industry
- You want your work to mean something
- You are excited to work with a small & fierce team led by women
- You are not afraid to get your hands dirty

The benefits of driving for Mother Compost are competitive pay, semi-flexible start times, strong road support & being treated like a hero by HQ. We know it's a hard job, as every single person in our company has done it. We respect our drivers tremendously. Without drivers, nothing works. And we do our best to never forget it.

Below you will find the job requirements as well as items that outline what the work entails.

Job Requirements:

- A valid driver's license
- Clean driving record
- Ability to move and tip wheeled collection bins (250lbs+).
- Able to work with little supervision, follow instructions, and complete assigned route
- Unloading and Loading of Buckets up to 40 lbs, typically 10 to 15.
- Complete multiple stops throughout the day while properly logging data, 40 to 100

Preferred:

- Commercial or professional driving experience
- Experience within customer service
- Experience with minor maintenance on vehicles (check fluid levels and tire conditions etc.)
- Knowledge of the Main Line & surrounding areas
- Experience or interest in resource conservation, recycling and/or composting

This position will start as a part-time contract position during the initial 30 days and will include a comprehensive training & onboarding process. The training pay will be \$15 per hour. After the initial period, if both parties agree it is a good fit, a W-2 position and contract will be offered.

Pay will be determined upon experience, base pay starting at \$18/hr, current CDL license \$21 per hour

Please send a resume to info@mothercompost.com

Background on Mother Compost

Mother Compost has been in operation since 2018 and we are growing fast! Our goal is to collect organics from our community and bring them to a farm that recycles organics into healthy compost that is used for gardening and farming. In addition to organics collection, Mother Compost offers education opportunities to our community, including classes, live workshops (when COVID safe), as well as digital education through blog posts, videos, and social media.
